

Board Meeting
14 June 2019
Agenda Item 6.

June 14, 2019

The Board supports the Registrar and CEO and college staff in our efforts to:

- 1) Address all the recommendations and unmet standards in Part 1 of the Cayton Report; and
- 2) Support the BC Health Regulators towards modernizing the framework for health professions regulation in keeping with Part 2 of the Cayton Report.

We are guided by the following foundational principles:

1. Everything the College does must clearly link to protection of patients and the public. If it does not, we will stop doing it.
2. The College belongs to the public of British Columbia. Dentists do not own the College.
3. The Board recognizes and respects the professional staff as trusted partners in public protection.
4. Leadership at the board and committee level is shared between the public and health professionals regulated by the College — current and future.
5. Transparency is our default position.
6. The involvement of patients and the public in College activities is invited and expected.
7. A shift in culture is required. This means asking ourselves hard questions and moving away from old ways of thinking.

I, _____, through these guiding principles commit to making the College an independent, effective, efficient, fair and patient-focused regulator, accountable to the citizens of British Columbia. I hold a public office, and understand that I am responsible to the public for my decisions and my conduct in that office.
